Toxicology 180 (2002) 305–308

TOXICOLOGY

www.elsevier.com/locate/toxicol

Subject index of volume 180

Adriamycin; Vitamin E; Vitamin C; Vitamin A; Carotenoids; Coenzyme Q; Flavonoids; Olive oil; Selenium; Doxorubicin; Antioxidants; Toxicity **180**, 79

Airway hyperresponsiveness; Diesel exhaust particles; Mast cell-deficient mice; Eosinophilic inflammation **180**, 293

Altitude; Hypoxia; Exercise; Free radicals; Oxidative stress; Reductive stress; Antioxidants **180**, 107

Animals; Paraquat; Antioxidants; Oxidative stress; Humans **180**, 65

Antimony; DNA damage; Radiation; Repair; Genotoxicity **180**, 249

Antioxidant; Antioxidant; Lead toxicity; Oxidative stress **180**, 33

Antioxidant; Lead toxicity; Oxidative stress; Antioxidant **180**, 33

Antioxidant nutrients; Vitamin K; Reactive oxygen species **180**, 183

Antioxidants; Altitude; Hypoxia; Exercise; Free radicals; Oxidative stress; Reductive stress **180**, 107

Antioxidants; Cell migration; Chemotaxis; *Dictyostelium discoideum*; Triethyllead; Microtubules **180**, 275

Antioxidants; Endotoxin; Lipopolysaccharide; Reactive oxygen species; Nitric oxide; Septic shock **180**, 45

Antioxidants; Mycotoxins; Detoxification; Free radicals; Lipid peroxidation **180**, 151

Antioxidants; Paraquat; Oxidative stress; Humans; Animals **180**, 65

Antioxidants; Vitamin E; Vitamin C; Vitamin A; Carotenoids; Coenzyme Q; Flavonoids; Olive oil; Selenium; Adriamycin; Doxorubicin; Toxicity **180**, 79

Apoptosis; Non-genotoxic carcinogen; Gap junction; Proliferation **180**, 233

Apoptotic cell death; Chromium(VI); Chromium(III); In vitro; In vivo; Oxidative stress; DNA damage **180**, 5

Ascorbic acid; Passive smoking; Environmental tobacco smoke; Secondhand smoke; Cigarette smoking; α-Carotene; β-Carotene; Cryptoxanthin; Lycopene; Lutein; Zeaxanthin; α-Tocopherol; γ-Tocopherol; Vitamin C; Vitamin E **180**, 121

2-Butoxyethanol; Mouse stomach tumours; Mode of action **180**, 257

Carboxylesterase; Vinyl acetate; Oral mucosa **180**, 209

β-Carotene; Passive smoking; Environmental tobacco smoke; Secondhand smoke; Cigarette smoking; α-Carotene; Cryptoxanthin; Lycopene; Lutein; Zeaxanthin; α-Tocopherol; γ-Tocopherol; Ascorbic acid; Vitamin C; Vitamin E **180**, 121

α-Carotene; Passive smoking; Environmental tobacco smoke; Secondhand smoke; Cigarette smoking; β-Carotene; Cryptoxanthin; Lycopene; Lutein; Zeaxanthin; α-Tocopherol; γ-Tocopherol; Ascorbic acid; Vitamin C; Vitamin E **180**, 121

Carotenoids; Vitamin E; Vitamin C; Vitamin A; Coenzyme Q; Flavonoids; Olive oil; Selenium; Adriamycin; Doxorubicin; Antioxidants; Toxicity **180**, 79

Cell migration; Chemotaxis; *Dictyostelium discoideum*; Triethyllead; Microtubules; Antioxidants **180**, 275

Chemotaxis; Cell migration; *Dictyostelium discoideum*; Triethyllead; Microtubules; Antioxidants **180**, 275

Chromium(III); Chromium(VI); In vitro; In vivo; Oxidative stress; DNA damage; Apoptotic cell death **180**, 5

Chromium(VI); Chromium(III); In vitro; In vivo; Oxidative stress; DNA damage; Apoptotic cell death **180**, 5

Cigarette smoking; Passive smoking; Environmental tobacco smoke; Secondhand smoke; α-Carotene; β-Carotene; Cryptoxanthin; Lycopene; Lutein; Zeaxanthin; α-Tocopherol; γ-Tocopherol; Ascorbic acid; Vitamin C; Vitamin E **180**, 121

PII: S0300-483X(02)00557-7

Coenzyme Q; Vitamin E; Vitamin C; Vitamin A; Carotenoids; Flavonoids; Olive oil; Selenium; Adriamycin; Doxorubicin; Antioxidants; Toxicity **180**, 79

CO-induced oxidative stress; CO poisoning; Hormesis **180**, 139

CO poisoning; Hormesis; CO-induced oxidative stress **180**, 139

Cryptoxanthin; Passive smoking; Environmental tobacco smoke; Secondhand smoke; Cigarette smoking; α-Carotene; β-Carotene; Lycopene; Lutein; Zeaxanthin; α-Tocopherol; γ-Tocopherol; Ascorbic acid; Vitamin C; Vitamin E **180**, 121

Curcumin; Naphthalene; Toxicity; Metabolism; Mechanism of toxicity; Vitamin E; Melatonin; L-Cysteine prodrugs **180**, 97

L-Cysteine prodrugs; Naphthalene; Toxicity; Metabolism; Mechanism of toxicity; Vitamin E; Melatonin; Curcumin **180**, 97

Detoxification; Antioxidants; Mycotoxins; Free radicals; Lipid peroxidation **180**, 151

Dictyostelium discoideum; Cell migration; Chemotaxis; Triethyllead; Microtubules; Antioxidants **180**, 275

Diesel exhaust particles; Mast cell-deficient mice; Eosinophilic inflammation; Airway hyperresponsiveness **180**, 293

DNA damage; Chromium(VI); Chromium(III); In vitro; In vivo; Oxidative stress; Apoptotic cell death **180**, 5

DNA damage; Radiation; Repair; Antimony; Genotoxicity **180**, 249

Doxorubicin; Vitamin E; Vitamin C; Vitamin A; Carotenoids; Coenzyme Q; Flavonoids; Olive oil; Selenium; Adriamycin; Antioxidants; Toxicity **180**, 79

Endotoxin; Lipopolysaccharide; Reactive oxygen species; Nitric oxide; Antioxidants; Septic shock **180**, 45

Environmental tobacco smoke; Passive smoking; Secondhand smoke; Cigarette smoking; α-Carotene; β-Carotene; Cryptoxanthin; Lycopene; Lutein; Zeaxanthin; α-Tocopherol; γ-Tocopherol; Ascorbic acid; Vitamin C; Vitamin E **180**, 121

Eosinophilic inflammation; Diesel exhaust particles; Mast cell-deficient mice; Airway hyperresponsiveness **180**, 293

Exercise; Altitude; Hypoxia; Free radicals; Oxidative stress; Reductive stress; Antioxidants **180**, 107

Flavonoids; Free radicals; Oxidation; Vitamin; Zinc **180**, 23

Flavonoids; Vitamin E; Vitamin C; Vitamin A; Carotenoids; Coenzyme Q; Olive oil; Selenium; Adriamycin; Doxorubicin; Antioxidants; Toxicity **180**, 79

Free radicals; Altitude; Hypoxia; Exercise; Oxidative stress; Reductive stress; Antioxidants **180**, 107

Free radicals; Antioxidants; Mycotoxins; Detoxification; Lipid peroxidation **180**, 151

Free radicals; Oxidation; Flavonoids; Vitamin; Zinc **180**, 23

Fumonisin; Hepatotoxicity; Transgenic mice; Tumor necrosis factor α; Tumor necrosis factor receptors **180**, 221

Gap junction; Non-genotoxic carcinogen; Proliferation; Apoptosis **180**, 233

Genotoxicity; DNA damage; Radiation; Repair; Antimony **180**, 249

Hepatotoxicity; Fumonisin; Transgenic mice; Tumor necrosis factor α; Tumor necrosis factor receptors **180**, 221

Hereditary hemochromatosis (HHC); Heterozygous; Potential risk **180**, 169

Heterozygous; Hereditary hemochromatosis (HHC); Potential risk **180**, 169

Hormesis; CO poisoning; CO-induced oxidative stress **180**, 139

Humans; Paraquat; Antioxidants; Oxidative stress; Animals **180**, 65

Hypoxia; Altitude; Exercise; Free radicals; Oxidative stress; Reductive stress; Antioxidants **180**, 107

In vitro; Chromium(VI); Chromium(III); In vivo; Oxidative stress; DNA damage; Apoptotic cell death **180**, 5

In vivo; Chromium(VI); Chromium(III); In vitro; Oxidative stress; DNA damage; Apoptotic cell death **180**, 5

Lead toxicity; Antioxidant; Oxidative stress; Antioxidant **180**, 33

Lipid peroxidation; Antioxidants; Mycotoxins; Detoxification; Free radicals **180**, 151

Lipopolysaccharide; Endotoxin; Reactive oxygen species; Nitric oxide; Antioxidants; Septic shock **180**, 45

Lutein; Passive smoking; Environmental tobacco smoke; Secondhand smoke; Cigarette smoking; α-Carotene; β-Carotene; Cryptoxanthin; Lycopene; Zeaxanthin; α-Tocopherol; γ-Tocopherol; Ascorbic acid; Vitamin C; Vitamin E **180**, 121

Lycopene; Passive smoking; Environmental tobacco smoke; Secondhand smoke; Cigarette smoking; α-Carotene; β-Carotene; Cryptoxanthin; Lutein; Zeaxanthin; α-Tocopherol; γ-Tocopherol; Ascorbic acid; Vitamin C; Vitamin E **180**, 121

Mast cell-deficient mice; Diesel exhaust particles; Eosinophilic inflammation; Airway hyperresponsiveness **180**, 293

Mechanism of toxicity; Naphthalene; Toxicity; Metabolism; Vitamin E; Melatonin; L-Cysteine prodrugs; Curcumin **180**, 97

Melatonin; Naphthalene; Toxicity; Metabolism; Mechanism of toxicity; Vitamin E; L-Cysteine prodrugs; Curcumin **180**, 97

Metabolism; Naphthalene; Toxicity; Mechanism of toxicity; Vitamin E; Melatonin; L-Cysteine prodrugs; Curcumin **180**, 97

Microtubules; Cell migration; Chemotaxis; *Dictyostelium discoideum*; Triethyllead; Antioxidants **180**, 275

Mode of action; 2-Butoxyethanol; Mouse stomach tumours **180**, 257

Mouse stomach tumours; 2-Butoxyethanol; Mode of action **180**, 257

Mycotoxins; Antioxidants; Detoxification; Free radicals; Lipid peroxidation **180**, 151

Naphthalene; Toxicity; Metabolism; Mechanism of toxicity; Vitamin E; Melatonin; L-Cysteine prodrugs; Curcumin **180**, 97

Nitrate; Vitamin E; Selenium; Superoxide; Nitric oxide; Peroxynitrite; Nitrite **180**, 195

Nitric oxide; Endotoxin; Lipopolysaccharide; Reactive oxygen species; Antioxidants; Septic shock **180**, 45

Nitric oxide; Vitamin E; Selenium; Superoxide; Peroxynitrite; Nitrite; Nitrate **180**, 195

Nitrite; Vitamin E; Selenium; Superoxide; Nitric oxide; Peroxynitrite; Nitrate **180**, 195

Non-genotoxic carcinogen; Gap junction; Proliferation; Apoptosis **180**, 233

Olive oil; Vitamin E; Vitamin C; Vitamin A; Carotenoids; Coenzyme Q; Flavonoids; Selenium; Adriamycin; Doxorubicin; Antioxidants; Toxicity **180**, 79

Oral mucosa; Vinyl acetate; Carboxylesterase **180**, 209

Oxidation; Free radicals; Flavonoids; Vitamin; Zinc **180**, 23

Oxidative stress; Altitude; Hypoxia; Exercise; Free radicals; Reductive stress; Antioxidants **180**, 107

Oxidative stress; Antioxidant; Lead toxicity; Antioxidant **180**, 33

Oxidative stress; Chromium(VI); Chromium(III); In vitro; In vivo; DNA damage; Apoptotic cell death **180**, 5

Oxidative stress; Paraquat; Antioxidants; Humans; Animals **180**, 65

Paraquat; Antioxidants; Oxidative stress; Humans; Animals **180**, 65

Passive smoking; Environmental tobacco smoke; Secondhand smoke; Cigarette smoking; α-Carotene; β-Carotene; Cryptoxanthin; Lycopene; Lutein; Zeaxanthin; α-Tocopherol; γ-Tocopherol; Ascorbic acid; Vitamin C; Vitamin E **180**, 121

Peroxynitrite; Vitamin E; Selenium; Superoxide; Nitric oxide; Nitrite; Nitrate **180**, 195

Potential risk; Hereditary hemochromatosis (HHC); Heterozygous **180**, 169

Proliferation; Non-genotoxic carcinogen; Gap junction; Apoptosis **180**, 233

Radiation; DNA damage; Repair; Antimony; Genotoxicity **180**, 249

Reactive oxygen species; Antioxidant nutrients; Vitamin K **180**, 183

Reactive oxygen species; Endotoxin; Lipopolysaccharide; Nitric oxide; Antioxidants; Septic shock **180**, 45

Reductive stress; Altitude; Hypoxia; Exercise; Free radicals; Oxidative stress; Antioxidants **180**, 107

Repair; DNA damage; Radiation; Antimony; Genotoxicity **180**, 249

Secondhand smoke; Passive smoking; Environmental tobacco smoke; Cigarette smoking; α-Carotene; β-Carotene; Cryptoxanthin; Lycopene; Lutein; Zeaxanthin; α-Tocopherol; γ-Tocopherol; Ascorbic acid; Vitamin C; Vitamin E **180**, 121

Selenium; Vitamin E; Superoxide; Nitric oxide; Peroxynitrite; Nitrite; Nitrate **180**, 195

Selenium; Vitamin E; Vitamin C; Vitamin A; Carotenoids; Coenzyme Q; Flavonoids; Olive oil; Adriamycin; Doxorubicin; Antioxidants; Toxicity **180**, 79

Septic shock; Endotoxin; Lipopolysaccharide; Reactive oxygen species; Nitric oxide; Antioxidants **180**, 45

Superoxide; Vitamin E; Selenium; Nitric oxide; Peroxynitrite; Nitrite; Nitrate **180**, 195

γ-Tocopherol; Passive smoking; Environmental tobacco smoke; Secondhand smoke; Cigarette smoking; α-Carotene; β-Carotene; Cryptoxanthin; Lycopene; Lutein; Zeaxanthin; α-Tocopherol; Ascorbic acid; Vitamin C; Vitamin E **180**, 121

α-Tocopherol; Passive smoking; Environmental tobacco smoke; Secondhand smoke; Cigarette smoking; α-Carotene; β-Carotene; Cryptoxanthin; Lycopene; Lutein; Zeaxanthin; γ-Tocopherol; Ascorbic acid; Vitamin C; Vitamin E **180**, 121

Toxicity; Naphthalene; Metabolism; Mechanism of toxicity; Vitamin E; Melatonin; L-Cysteine prodrugs; Curcumin **180**, 97

Toxicity; Vitamin E; Vitamin C; Vitamin A; Carotenoids; Coenzyme Q; Flavonoids; Olive oil; Selenium; Adriamycin; Doxorubicin; Antioxidants **180**, 79

Transgenic mice; Fumonisin; Hepatotoxicity; Tumor necrosis factor α; Tumor necrosis factor receptors **180**, 221

Triethyllead; Cell migration; Chemotaxis; *Dictyostelium discoideum*; Microtubules; Antioxidants **180**, 275

Tumor necrosis factor α; Fumonisin; Hepatotoxicity; Transgenic mice; Tumor necrosis factor receptors **180**, 221

Tumor necrosis factor receptors; Fumonisin; Hepatotoxicity; Transgenic mice; Tumor necrosis factor α **180**, 221

Vinyl acetate; Carboxylesterase; Oral mucosa **180**, 209

Vitamin A; Vitamin E; Vitamin C; Carotenoids; Coenzyme Q; Flavonoids; Olive oil; Selenium; Adriamycin; Doxorubicin; Antioxidants; Toxicity **180**, 79

Vitamin C; Passive smoking; Environmental tobacco smoke; Secondhand smoke; Cigarette smoking; α-Carotene; β-Carotene; Cryptoxanthin; Lycopene; Lutein; Zeaxanthin; α-Tocopherol; γ-Tocopherol; Ascorbic acid; Vitamin E **180**, 121

Vitamin C; Vitamin E; Vitamin A; Carotenoids; Coenzyme Q; Flavonoids; Olive oil; Selenium; Adriamycin; Doxorubicin; Antioxidants; Toxicity **180**, 79

Vitamin E; Naphthalene; Toxicity; Metabolism; Mechanism of toxicity; Melatonin; L-Cysteine prodrugs; Curcumin **180**, 97

Vitamin E; Passive smoking; Environmental tobacco smoke; Secondhand smoke; Cigarette smoking; α-Carotene; β-Carotene; Cryptoxanthin; Lycopene; Lutein; Zeaxanthin; α-Tocopherol; γ-Tocopherol; Ascorbic acid; Vitamin C **180**, 121

Vitamin E; Selenium; Superoxide; Nitric oxide; Peroxynitrite; Nitrite; Nitrate **180**, 195

Vitamin E; Vitamin C; Vitamin A; Carotenoids; Coenzyme Q; Flavonoids; Olive oil; Selenium; Adriamycin; Doxorubicin; Antioxidants; Toxicity **180**, 79

Vitamin; Free radicals; Oxidation; Flavonoids; Zinc **180**, 23

Vitamin K; Antioxidant nutrients; Reactive oxygen species **180**, 183

Zeaxanthin; Passive smoking; Environmental tobacco smoke; Secondhand smoke; Cigarette smoking; α-Carotene; β-Carotene; Cryptoxanthin; Lycopene; Lutein; α-Tocopherol; γ-Tocopherol; Ascorbic acid; Vitamin C; Vitamin E **180**, 121

Zinc; Free radicals; Oxidation; Flavonoids; Vitamin **180**, 23
